

ALVIN HARUNA - FRONTEND ENGINEER

Lagos, Nigeria, Remote

+2348167427274, harunaalvin@yahoo.com harunadev.netlify.app

PROFESSIONAL SUMMARY

I am a Software Developer, Frontend Engineer and Technical Writer specialising in React, Next.js, and TypeScript, with experience building performant, accessible, and maintainable user interfaces. Proficient in modern tooling, state management, component architecture, and integrating RESTful APIs.

Also, with strong advocacy for clean code, testing, and collaboration, with a background in technical writing and cross-functional communication that enables efficient delivery of user-focused products.

WORK HISTORY

Freelance, Lagos, Nigeria, Remote, April 2019 - Present

Software Developer, Frontend Engineer, Technical Writer

- I leverage no-code tools like WordPress and coding technologies such as Node.js, React, Django, JavaScript, TypeScript, and HTML to build progressive web applications, chrome extensions and desktop applications for clients, delivering efficient, scalable solutions.
- I use Agile methods to ensure flexibility and timely project delivery, allowing me to meet both user and client needs.
- I use Figma and design principles to create visually appealing and user-friendly interfaces, ensuring a seamless user experience.

Ace Innovations Hub Inc, Remote, October 2024 - March 2026

Frontend Engineer, (Contract)

- Built and maintained a staff management dashboard using React and Material UI, delivering reusable, scalable UI components aligned with product requirements.
- Implemented state management and API integration using Redux Toolkit and RTK Query, improving data consistency and reducing redundant network requests.
- Collaborated using Git and GitHub, and configured GitHub Actions for automated testing and deployment workflows, improving release reliability.
- Worked in an Agile environment, participating in sprint planning, reviews, and iterative delivery to meet evolving user and business needs.

New Horizons Limited, Lagos, Nigeria, October 2022 - October 2024

Programming Instructor & Frontend Developer

- I enhanced student engagement and interest in programming by developing interactive and enjoyable problem-solving approaches to coding.
- I facilitated classroom discussions and promoted collaboration among students, creating a supportive and engaging environment.
- I used Agile methodologies to ensure that projects were completed before the deadline.
- I managed a team of student developers to build a SaaS product with Flask, JavaScript, and CSS. I contributed to the project while coordinating and merging individual deliveries using Agile methods for smooth collaboration and timely delivery.

Dangote Packaging Limited, Ogun, Nigeria, January 2021 - December 2021

HR Analyst & Administrative Officer

- I used Microsoft Office365 to manage interns' attendance and payroll, ensuring prompt stipend payments and efficient activity tracking.
- I used Microsoft Excel and the VLOOKUP function to gather and analyze daily attendance and production data, identifying the impact of staff absenteeism on production output.

Dangote Packaging Limited, Lagos, Nigeria, June 2018 - December 2018

Procurement Officer (Intern)

- I collaborated with a team of interns to gather import data for raw materials and machinery, ensuring accuracy and completeness. We organized and compiled the data using Microsoft Excel, coordinating efforts to meet the requirements of Customs authorities.

TECHNICAL SKILLS

- TypeScript, Python, JavaScript, Linux, SASS, Tailwind CSS, React, Material UI, CSS , Django, Next.js, Flask, Node.js, Npm & Pip
- Task Automation with shell scripting, Git, GitHub for version control and Git actions for CI/CD pipelines , Vercel, Netlify, PythonAnywhere, Docker, Choreo
- QA Testing (pytest, jest, vitest)
- WordPress, UI/UX Design and Svg Design (Figma)
- Software Development, Google, Stack Overflow, Open Source, Technical Writing.

EDUCATION

- Computer Science(CS50) - **Harvard Division of Continuing Education**, Virtual, *December 2023*
- Business Administration(Bachelor of Science) - **Universite Les Cours Sonou**, Cotonou, Benin Republic, *July 2016 - November 2019*
